

#EpitechXP2020

Epitech x Experience

Live the Epitech Experience

**119 student projects
designing the world of the future**

**JANUARY 24 AND 25, 2020
AT THE DOORS OF PARIS**

**Emmanuel Carli,
Managing Director of Epitech, invites you to**

Epitech Experience is a meeting place for the Tech community where partners, companies, investors, influencers, and tech enthusiasts come together. In a celebration of the best of IT, our students present their cumulative projects which are the result of 5 years of work.

For two days, the school is transformed into a «Mini CES», where attendees can listen to the pitch of the best projects, and attend demos and conferences on innovation and the digital profession.

Every year, students' creativity and ability to respond to societal issues impresses the audience, which continues to grow. The 2020 edition will put people at the center of technology, from smart payment solutions for a vulnerable population, to a collaborative platform of sign language resources, to a game that raises awareness about how the human body works.

Enter the future, discover the Epitech Experience.
