Dear Parents of Grades 9, 10, 11, and 12,

As part of the support services programme, BINUS SCHOOL Serpong – Guidance and Counseling Department will conduct an in-house **Talent and Interest Assessment** in cooperation with **JEJAK KAKI Psychological Development Center**. The assessment will use a set of paper-based tests written in Bahasa Indonesia. Test materials in English are also available upon request but JEJAK KAKI requires a minimum of 20 (twenty) students in order for it to proceed. However, if the minimum number of students is not reached, you will be advised accordingly. Should your child want to have the test in English, kindly communicate the request to the Guidance Counselor upon registration. Students will receive a report either in Bahasa Indonesia or English (upon request).
